High Ping to Router on One PC

2019/09/15

Hey there. I recently seem to be getting a problem where if I launch a game (Garry's Mod, OSRS) my ping to the router spikes, even on main menus. Here is a before and after screenshot, before I open the game and after. I've looked around and have found the issue can be related to the CPU. I'm using an Intel i5 8600k which reaches around 30% load in GMod and 30°C. Any help would be appreciated
